PROFESSIONAL SUMMARY

BSIT Graduate specializing in Full-Stack Web Development with 650+ internship hours at DICT and extensive hands-on experience building full-stack applications. Proficient in PHP, Laravel, React, Next.js, TypeScript, and MySQL. Experienced in AI-assisted workflows (LLMs) for rapid prototyping, robust code reviews, and automated documentation while enforcing strict human verification and testing in production pipelines.

SKILLS

- **Languages & Core:** PHP, JavaScript, TypeScript, HTML5, CSS3, SQL
- **Frameworks & Web:** Laravel, React, Next.js, Tailwind CSS, REST APIs, Prisma ORM
- **Databases & Tools:** MySQL, PostgreSQL, Git, GitHub, VS Code, Vite, Vercel
- **Methodologies:** Agile Development, AI-Assisted Prototyping & Code Review
- **Spoken Languages:** English (Professional Working Proficiency), Filipino (Native)

WORK EXPERIENCE

Mayerfeld Practicum Program® — AI-Assisted Frontend Developer | May 2026 – Jun 2026

• Architected full-stack travel booking platform from static HTML/CSS to Next.js 16 + PostgreSQL + Stripe Checkout in 4 weeks; deployed to Vercel with CI/CD.
• Implemented Auth.js v5 authentication and webhook-verified Stripe payments with price-freezing Order tables to prevent race conditions.
• Leveraged AI-assisted workflows for rapid prototyping while enforcing human verification of auth logic, payment flows, and database schema integrity.

Department of Information and Communications Technology (DICT) | Web Development Intern | AUG - DEC 2025

• Engineered and maintained database-backed web applications using PHP, Laravel, MySQL, and JavaScript over 650 intensive hours of OJT training.
• Collaborated closely with supervisors through iterative feedback cycles to deliver secure, responsive system features adopted by regional offices.
• Participated as technical staff for major regional ICT seminars, departmental events, and technology workshops serving 200+ attendees.

KEY TECHNICAL PROJECTS

Wanderly Travel Agency Platform | Full-Stack Developer | Practicum Project | OCT 4 - OCT 31, 2026

- Designed a web application progressing from mobile-first UI (Vite, React, Tailwind) to Next.js + PostgreSQL + Prisma backend handling simulated payment workflows.

Padyakwatts — Capstone Research Project | Lead Presenter & Developer | AUG 2025 - MAR 2026

- Designed, Developed and presented full capstone solution; awarded Best Capstone Project and 1st Runner-Up for Best Research Paper at Saliksik Asianista 2026 out of 30+ entries.

ByteForward Hackathon 2025 Prototype | APCAS Tech Representative | JUN 19 - 20, 2025

- Represented APCAS Tech in intercollegiate hackathon, building and pitching functional prototype in under 24 hours; selected as school representative among 50+ candidates.

EDUCATION

ASIA PACIFIC COLLEGE OF ADVANCED STUDIES (APCAS) | (2021 - 2026)
Bachelor of Science in Information Technology (BSIT) Dean's Lister | Best in Capstone

BATAAN SCHOOL OF FISHERIES (BSF) | (2018 - 2020)
SENIOR HIGHSCHOOL | STEM Graduated with Honors

CERTIFICATIONS & TRAINING

- Anti-Cybercrime Initiative (Project Acuity) | May 2024
- Cisco Networking Academy: Introduction to Cybersecurity & Introduction to AI | Sep 2025
- DEVCON Code Camp: ICP Bootcamp | Apr 2025
- Digital Transformation ICT Project Management | Dec 2025
