ABOUT ME

BSIT graduate specializing in web development, with hands-on experience from a 650-hour DICT internship and multiple academic and personal projects. Experienced in front-end and back-end development using PHP, JavaScript, TypeScript, React, Laravel, Next.js, MySQL, and related technologies. Substantial hands-on experience leveraging general AI and LLM tools for rapid prototyping, robust code review, and automated documentation, while keeping rigorous human review and testing central to the deployment pipeline.
Adaptable, collaborative, and comfortable learning new technologies and developing solutions through iterative feedback.
